

Welcome!

BRICKYARDCREEKCOMMUNITY.COM

A Boreal Forest Community

Brickyard Creek is a residential community of private cabins with a **small percentage of rental cottages**. In this quiet environmental community, the “cabins are of the land not on the land.”

Join us in enjoying the natural setting — forest trails, creek, and **over 70 acres** of exclusive Bayfield Boreal Forest

Twenty is plenty — For the safety of all please **drive 20mph or less**

Guests are allotted space for **TWO cars** — additional free parking (and rentable trailer space) is available near the marina

This is an allergy-free rental — **no pets + no smoking on the premises**

Community **quiet hours** are observed daily between **10pm and 8am** — voices carry in the woods; please refrain from porch noise and music during this period

Enjoy the private community beach & picnic area

Follow the trail creekside, and you're a short stroll from the sandy, quiet, private beach on Lake Superior.

Enjoy the community's lake-side fire pit and covered picnic area as you look out at the Apostle Islands.

Go before you go — There is **no public bathroom** available.

Enjoy the beach, picnic area, and fire pit — The **clubhouse** is for paid **marina members only**.

Be safe; absolutely **no climbing** on the rock wall (or on the ice in the winter) — The power of the lake shifts the jagged rocks and ice daily.

Brickyard Creek Recycles

During your stay please recycle **cans, plastics & glass**.

Garbage and recycling dumpsters are located just past the intersection of Roy's Point Boulevard and Brickyard Creek Road.

Every Drop Counts

This cottage has a **holding tank**, not a sewer or septic system. Please don't run water unnecessarily or flush any feminine products.

When the tank is full, **an alarm will sound** (to silence it, push the “silence” button located in the closet under the stairs), and notify your rental agency.

Welcome!

Meet Your Neighbors

*May all who enter as guests,
leave as friends.*

Brickyard Creek is a quiet environmental community of individual owners, families, and guests that come to enjoy the natural setting and the tranquility of the Bayfield Boreal Forest. *We welcome you!*

We are a unique collective of people focused on protecting our environment for future generations.

We are committed to maintaining this exceptional boreal forest environment, promoting education, and creating a legacy of responsible stewardship.

Learn more about Brickyard Creek's history, community, and mission at: BrickyardCreekCommunity.com

Life Is Better By The Campfire

Enjoy an evening with friends or family around the community fire pit at the lake front.

There is **firewood available** — DO NOT pick up wood on the common grounds, private lots, or along the trails.

Please be particularly careful not to build roaring fires. Be alert to wind conditions — Fast-moving embers easily **burn holes in sails of boats** at the marina or start forest fires.

Ensure the fire is **fully extinguished** when leaving the area.

Native Trees & Flora

Visit Brickyard Creek throughout the seasons, and you'll find native Wisconsin flowers, Canadian yew, and a variety of unique boreal forest coniferous trees. Guests are allotted two vehicles at each rental unit to ensure **edge-of-road parking** doesn't inadvertently damage the ongoing **nature rehabilitation areas**.

Where The Wild Things Are

Children are always welcome — Please provide **adult supervision** to ensure their safety.

The boreal forest is home to a variety of wild animals, including fox and **black bear**. Dawn and dusk are the best time to see wildlife at Brickyard Creek!

"We are all guests that need to be respectful of their host — Mother Nature."
